Sponsorship prospects

The Office of the NSW Chief Scientist & Engineer (OCSE) provides independent, evidence-based advice to government on how to address difficult policy problems. OCSE provides funding to the NSW research sector and brings academia, government and industry together to drive the commercialisation of research excellence for the benefit of the state, with a major focus on industry development. OCSE also supports a number of science outreach and engagement activities and events, including the annual Premier's Prizes for Science & Engineering.
